Mayor's Change of Views Pointed To in Support of His Plans for Campaign.

Did Mayor Hylan give his approva to the Smith bill requiring the Board, of Estimate to start construction or tunnel between Brooklyn and Staten sland within two years, so there would be an excuse for Grover Whalen his chief political adviser, to build up an extensive staff of engineers, drafts men, &c., in the Department of Plant

and Structures, of which Whalen is Commissioner?

That question was being asked yesterday by those to whom it did not seen quite inconceivable that Mayor Hylan might find this amount of patronage most convenient in a year when he is to run for reelection. To criticisms of any increase in the staff of Commissioner Whalen the reply would be that it was mandatory.

It is variously astimated that the near the staff of George Cognill and John B. Stanchfield, attorneys for Mrs. Stillman, who pleaded urgent business that would

of Commissioner Whalen the reply would be that it was mandatory. It is variously estimated that the processed tunnel would cost anywhere from \$20,000,000 to \$30,000,000. During the last three and one-half years Mayor Mylan has repulsed delegations of Staten Islanders pleading for the construction of a tunnel with the cold, hard the fits was never nearer the financial shoals, he accepts on behalf of the city a bill that makes it necessary for the Board of Estimate to start construction on such a tunnel within two years. This in spite of the fact that he always has protested against Albany fasteling on the city mandatory legislation for the expenditure of money.

When the dual subway system was planned a rapid transit route to Staten Island by way of a tunnel from Sixtyfifth street, Bay Ridge, to St. George was laid out. No steps ever have been taken to build this line because ghere has been no money. So far as could be learned yesterday the Public Service Commission or its successor, the Transit route to Straten than to build this line because ghere has been no money. So far as could be learned yesterday the Public Service Commission or its successor, the Transit route to Straten than to build this line because ghere has been no money. So far as could be learned yesterday the Public Service Commission or its successor, the Transit the French meurologist and John B. Stanch field, attorneys for Mrs. Stillman is stilled has would prevent them from participating in a hearing next week. Mr. Stanchfield has business in Mineola on May 19.

Several new rumors were abroad yesterday. One was to the effect that Mr. Stillman's lawyers were about to notify the Ostsopathic Society that it was the content of court in censuring Dr. Hugh L. Russell, of Buffalo, who testified that Mrs. Stillman admitted to him that Fred Beauvais was the father of her son Guy.

Another rumor was to the effect that Mrs. Stillman was inducted into the Caughnawaga tribe of the iroquois natural may be added to have taken the content of rescue at the c

a tunnel, the use of which might be termined later, upon the Board of

determined later, upon the Board of Estimate.

It will be up to the Board of Estimate to find the money. Beyond the amount of money it will take to prepare plans in the Department of Plant and Structures, no contrast for the construction of the tunnel can be let without at once setting off against the debt margin the amount required to complete it. As tunnel contracts are never let in sections, that would mean a twenty or chirty million cut from the debt limit before construction can be started. The law requires such a start within two years. Those familiar with the financial affairs of the city were facilined last hight to believe the Board of Estimate had on its hands a real live "pig in a picke."

Alarmed Families Rush to Street When Fire Starts.

Several families living in the five story tenements in Nos. 119, 121 and 123 Baxter street left their homes late last night when fire started in the six scory loft building in 125 and 127 Baxter street. The flats in the tenement houses were filled with smoke, and although Chief Kenlon of the Fire Department told them that there was, no danger, most of the occupants left the buildings. During the fire, Fireman fiohn J. Carlin of Engine Company No. 85, cut his foot on a piece of glass and was attended by Dr. Arthur Haicken of Volunteer Hospital.

The smoke that poured up from the burning building was so dense that several firemen were almost overcome, and it was not useful Honorary Battallon Chief Edward Kenny arrived with several large are lights sent by the Edison Company that the firemen were able to see what they were doing. With these turned on the fire, the firemen povercame the handleap of the smoke end extinguished the flames after two alarms had been turned in.

TWO LAWYERS CENSURED.

Irving H. Bodman and James H. Penn, lawyers, oppeared yesterday before the Appellar Division on charges preferred by the Bar Association, alieging the sending of "unethical" letters in hebalf of clients, threatening criminal proceedings against the recipients of the letters unbes property belonging to their clients was restored. Both the wyers admitted Justice Dowling found in his opinion, that they would not have ent the letters tad they given proper consideration to them and they disavowed an intered breach of chines. He accordingly lismissed the charges, with censure upon the lawyers for their "imprudent acts"

Whalen, Commissioner of Plants and Structures, it became known

resterday. Mr. Whalen stated he had chtained from the Corporation Counsel a ruling that a legislative act passed two years ago giving the Department of Plant and Structures jurisdiction over ferries took precedence over an order of Mayor Hylan settling up Commissioner Hulbert as "Director of the Port" with complete jurisdiction over waterfront improvements.

It appeared that Commissioner Hulbert was not aware of Commissioner Whalen's intentions before the Sinking Fund Commission and was prepared to make a fight when the Mayor intervened.

has been no money. So far as could be learned yesterday the Public Service Commission or its successor, the Transit Construction Commission, never has gone so far as to make borings.

George Mcdaneny, chairman of the new Transit Commission, said the tunnel bill did not affect the commission, for it did not purport to provide a new transit route, but laid the duty of building a tunnel, the use of which might be in the commission, and did write the so-called hysterians at unnel, the use of which might be in the commission of the performing major surgical operations upon persons he first had hypnotized. At any rate it is promised that Dr. Russell will be cross-examined along the later (exhibit A), that she was not ical letter (exhibit A), that she was no responsible, but that her subconscious responsible, but that her subconscious self did the talking and writing. In other words it will be contended that whether Mrs. Stillman wrote the letter or not, she does not remember it.
